

VISOR™ Edge

The incredibly thin,
infinitely expandable
handheld computer.

The Handspring Visor Edge is the thinnest, infinitely expandable handheld computer. It's a slim, sleek, rechargeable Palm OS® organiser with endless expansion possibilities. And because the Visor Edge has a **unique detachable Springboard™** slot, it's completely expandable when you need it, and incredibly thin when you don't. Plus, it's plug-and-play so there are no drivers to load. Just snap in a Springboard module—like a phone, digital camera, MP3 player, and more—and it works!

Based on the popular Palm OS, the Visor Edge has powerful organising capabilities. In addition to an address book, to do list, and memo pad, there are extra features like an enhanced date book, advanced calculator and a world clock. Plus, it has new usability features like Fast Lookup, silent alarms, infrared synchronisation, handy address duplication, improved security, and enhanced navigation. And, since it uses the Palm OS, you can download thousands of Palm-compatible applications, transfer all your existing Palm organiser data with one touch, and beam information to other Palm users.

When it comes to synchronising, the **USB connection** makes everything amazingly fast and easy. Using the USB cradle and HotSync® technology you can back up, update or exchange information between your Visor Edge handheld and desktop computer in seconds.

What's more, the Visor Edge is **rechargeable**, so you'll never have to deal with batteries again. The Visor Edge lasts for weeks on a single charge (based on normal usage; individual experience may vary) and recharges quickly—right in the cradle! And while we're on the subject of speed, the Visor Edge is **incredibly fast**, too, allowing you to instantly access all your data and view crisp grayscale graphics.

The Visor Edge has other great features too, like a **metal flip cover** for screen protection without compromising size, a sleek **metal stylus**, and a choice of **3 metallic colours**—red, blue and silver.

visor

Visor Edge™ Features

Incredibly Organised

- Get instant access to everything you need, everywhere you go.
- Enhanced date book with expanded views, including weekly, yearly and a list view.
- Integrated To Do items that appear in the daily calendar view.
- Advanced calculator with advanced math, trigonometry, business, statistical, and conversion functions; built-in math library for higher precision.
- World clock with day of the week and time for five cities around the globe.

Runs the Popular Palm OS®

- Use thousands of Palm OS based software programs.
- Transfer existing data from a Palm™ organiser to your Visor Edge with just one touch.
- Beam information or programs between your Visor Edge and other Palm organisers.

Infinitely Expandable

- The unique detachable Springboard™ expansion slot means your Visor Edge can instantly become a digital camera, phone, wireless modem, MP3 music player, and more.
- It's completely expandable when you need it and incredibly thin when you don't.
- It's got true "plug-and-play" expansion—no need to load any drivers, just plug in a module and it works!
- Modules can be purchased separately. Check www.handspring.co.uk for availability.

Well Connected

- USB connection makes synchronising with your desktop computer a whole lot faster and easier.
- Instantly back up, update and exchange information between your Visor™ handheld and desktop computer with the USB cradle and HotSync® technology or via infrared.
- Windows and Macintosh desktop software are included.
- Connect your Visor to your GSM phone using infrared, giving you instant web access, ability to easily send and receive SMS & email messages. In addition you can

manage your phone book, customise your mobile phone screen and more (requires appropriate 3rd party applications, an IrDA compliant GSM phone and a GSM data subscription for certain applications).

Plus...

- It's rechargeable. Quickly recharges in the cradle, so you'll never have to deal with batteries again.
- It's fast. Access data instantly.
- It's covered. Metal flip cover protects the Visor Edge screen.
- It's irresistible. Sleek metal design and three edgy metallic colours make it look and feel great.
